

6. FALL AWAY

(Verse 1)

Hey my friend, here we are again
You've changed your hair, same old bones and skin
Remember when we lived life day to day
A part of me still wants to run and play
But now there's something different in your eyes
What brought you to this place of compromise
Did twists and turns in life, bring you down
Still searching for some place you haven't found

(Chorus)

Please don't fall, please don't fall, please don't fall
Fall away
Please don't fall, please don't fall, please don't fall
Fall away, from the frey

(Verse 2)

You're chasing lights in the dark that never end
And something's always coming round the bend
You lost yourself, out there near the edge
So take my hand, and climb down from the ledge

(Bridge)

And you feel so tired, you feel so tired

(Ending)

Don't fall.....away, Don't fall.....away
