

10. FLOATING

(Verse 1)

It wasn't that long ago, I dreamed that life would end
Insecure and all alone, the walls were closing in
I was, floating down stream

(Verse 2)

Twenty-five years ago, I learned to breathe you in
Now it really just goes to show, your love will always win
I'm still, floating down stream

(Chorus)

Into the arms of my Savior, catching me from my fall
Here in Your arms I'm forgiven, loving me through it all

(Verse 3)

Well I thought that you should know, I slowly feel the pain subside
When you look into my eyes, you strip away the shame inside
Now I'm, floating down stream

(Bridge)

I thought I could live like superman
Had the world eat'n outta my hand
Then I lost my grip and I hit the ground
Saw my world come spiraling down
Crawling in the mud, no one seemed to care
Crying out for love, it wasn't anywhere
Heard Your voice say "gotta be free"
That's when love reached down to me

(End Tag)

Your love, reached down to me, Your love, reached down to me
Your love, reached down to me, Your love sets me free
