

# **1. LION AND LAMB**

(Verse 1)

When will peace come, hear them bag their drums  
Army's marching on, and on  
Fire in the sky, children that shouldn't die  
The day is drawing nigh  
The lion lies down with the lamb, the lion lies down with the lamb

(Verse 2)

Kings and kingdoms fall, hatred will blind them all  
Living by the sword, they'll die  
Blood still on their hands, raging through the land  
Taking all they can, the lion lies down with the lamb  
The lion lies down with the lamb

(Verse 3)

When will peace come, hear them bag their drums  
Army's marching on, and on  
Fire in the sky, children that shouldn't die  
The day is drawing nigh  
The lion lies down with the lamb, the lion lies down with the lamb
