

10. SOMETHING REAL

(Verse 1)

Every day changes
Faces and phases
Nothing stays the same
A new day arises
Bringing surprises
And all I have to say is

(Pre Chorus)

When you say that you'll hold me
Never let go of me
Then I'll be
Your voice in the dark
Ooo we need to be wanted
We all need love

(Chorus)

Something special, something real
Way down deep in my soul
Something special, something real
This is all I ask for

(Verse 2)

Watching the changes
Turning the pages
That make me love you more
Each situation, I get myself in
You're always by my side

(Pre Chorus 2)

When you promise to hold me
Never let go of me
Then I'll be
Your voice in the dark
ooo you say that you want me
We all need love
